WORK EXPERIENCE

AIESEC in Pakistan - Karachi South

ICX Business Relations & Development TM; BD Logistics & External Relations TM

Karachi, PK

October 2025 – Present

- Develop B2B partnership leads with companies, software houses, NGOs, and partner organizations for incoming global exchange programs across IGV and IGT domains.
- Secured a partnership with Foundation Fighting Poverty (FFP), supported the MoU signing process, and coordinated email, venue, and onsite logistics.
- Worked directly with venue and NGO leads, strengthening stakeholder management, cross-functional coordination, and social impact execution.

ibex. Pakistan

TV Tier II Specialist; Universal Claims Specialist; Walmart Associate

Karachi, PK

November 2024 – July 2025

- Supported US SquareTrade customers across service workflows, electronics warranty claims, and TV troubleshooting in an inbound call environment.
- Handled inbound queries of Walmart (US) customers and made sure their query to be resolved at the earliest.
- Used Salesforce, JIRA, Google Workspace, Medallia, OKTA, Stella, and Citrix to document claims, resolve issues, and escalate complex cases both during SquareTrade and Walmart.
- Earned 95% QA during UCS training, achieved 86.42% QA as TV Tier II, received second-highest April CSAT recognition worldwide, and was promoted to TV Tier II.

Irteqaa

Project Head; Media Intern

Karachi, PK

June 2024 – August 2024

- Promoted from Media Intern to Project Head after strong early performance in documentary planning, production coordination, and team execution.
- Led weekly meetings, delegated tasks, tracked team progress, drafted proposals and permission letters, and coordinated interviews and filming access.
- Led a 20-day editing cycle and helped produce a 45-minute HD documentary published through Umair Nasir Productions.

PROJECTS

Arduino-based Responsive Gas Detection System

Gas-Leakage-Prototype

Built an Arduino-based gas leakage detection system with real-time MQ-2 sensor monitoring, LCD output, alert indicators, buzzer warning, and automatic fan speed control based on gas concentration.

Student Management System - JavaFX Desktop App

Student Management System (JavaFX)

Developed a JavaFX desktop application for student records using OOP and file handling, including add, view, update, delete, and search functionality with a simple project showcase page.

Finance Tracker - Spend Less, Save More

Fintrack Journal

Built a responsive front-end finance tracker using HTML5, CSS3, and JavaScript with dashboard summaries, transaction management, category/date filters, localStorage persistence, profile editing, and a glassmorphism UI.

Employee Management System - C Console Application

Employee Management System

Engineered a C-based CRUD record-management program using structs, arrays of structures, file handling, modular functions, search logic, and safer input-buffer management.

Python-based AI Career Counselor

AI-Career Counselor

Built an AI-powered career counseling app using Python, Gradio, Tesseract OCR, Poppler, Groq API, and Llama 3 to extract resume text from PDFs/images and generate structured feedback, career path recommendations, skill-gap analysis, job title suggestions, and downloadable TXT/PDF reports.

Short Film (Nora)

linktr.ee/umaisnasir

Produced a 3-minute short film as the final outcome of the Filmmaking Basics course at Indus Valley School of Art & Architecture, translating classroom theory into practical production. Used professional filmmaking equipment, including drone footage, studio lighting, varied camera shots, and B-roll sequences, to create a 4K video with structured pre-production, shooting, and post-production workflows.

LEADERSHIP & RECOGNITION

Best BD Team Member at AIESEC in Karachi South; Winner of "Photosel" at Enigma XII; TEDxClifton Karachi Media Team; WRO Event Guide; Katalyst Labs/AIM Consulting Social Media Volunteer; Head Delegate for SZABIST-E-FEST, IBA ProBattle, FAST PROCOM, SCINNOVA and EPSILON
